

Epson EB-905 Projector

DATASHEET

Make presentations brighter with the Epson EB-905, which gives a super-clear picture, has smart features to enhance lessons or meetings, and is easy to set up.

Project a perfect XGA image, even in daylight, and keep the lights on so your audience can take notes; Epson's 3LCD technology and a high White and Colour Light Output of 3000 lumens deliver superb clarity in all conditions.

The EB-905's useful features can make lessons more effective. The powerful 16W integrated speaker helps your audience hear clearly, and there's a handy microphone input. Share 3D objects on the big screen by plugging in Epson's ELP-DC06 document camera. You can also share pictures with your audience by projecting directly from your USB drive, camera or portable hard drive using the EasyMP slideshow feature.

Whatever your room layout, installing the EB-905 is straightforward. Even if the projector is at an angle to the screen, you can quickly align the picture using automatic vertical and manual horizontal keystone correction, and the x1.6 zoom adds further flexibility. For easy desktop use, the projector's pull-out foot supports a tilt angle of up to 16 degrees.

Easily control and monitor your projector fleet using Epson's EasyMP advanced networking features. Broadcast image and sound over your network via the LAN input. Save time and hassle by adjusting settings, such as projector on/off times, from a single point on your network.

KEY FEATURES

- Exceptional image quality with Epson's 3LCD technology
- HDMI connection
- Easy set-up
- x1.6 zoom
- Optional wireless connectivity
- EasyMP network management

EPSON
EXCEED YOUR VISION

PRODUCT SPECIFICATIONS
