

AHUJA introduces a 1000 watts Professional 2-Way PA Speaker System with exceptionally good bass performance. It uses two high efficiency, high power LF drivers with extended low frequency response, plus an exceptional quality dynamic tweeter with titanium diaphragm. All these with an optimally matched crossover, and housed in a strong, acoustically treated bass reflex trapezoidal carpet covered cabinet.

Unmatched sound clarity, high sound pressure level, wide frequency response, and excellent reliability make SPX-1200 an ideal speaker system for the most demanding high power music & PA installations.
