**2021 HARDWARE
& ACCESSORIES**

The **Pearl CHC200 Boomerang Cymbal Arm** is a curved cymbal holder with a practical multi-clamp. You can mount the cymbal holder in **curved design**, for example, on any conventional hardware or rack rod. Thanks to stepless angle adjustment with GyroLock, flexible adjustment options are available. With a **diameter of 12.3 mm**, the boom is extremely robust.
